## [MATERIAL CODE STANDARDS]

Material codes and names and their respective naming rules are managed in accordance with the prescribed standards. Please refer to these standards when requesting a material.

### 1. Material Code Type

● : Number

■ : Letter (Alphabet)

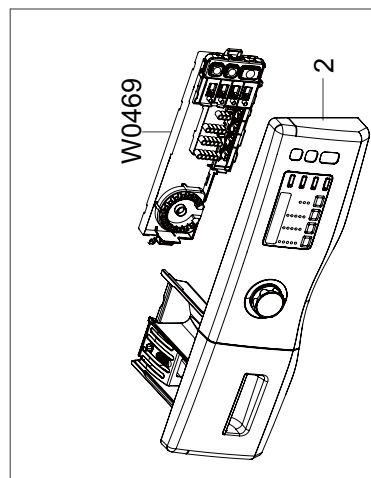

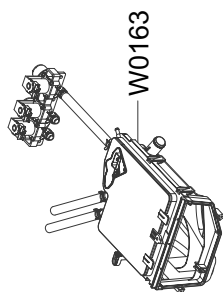

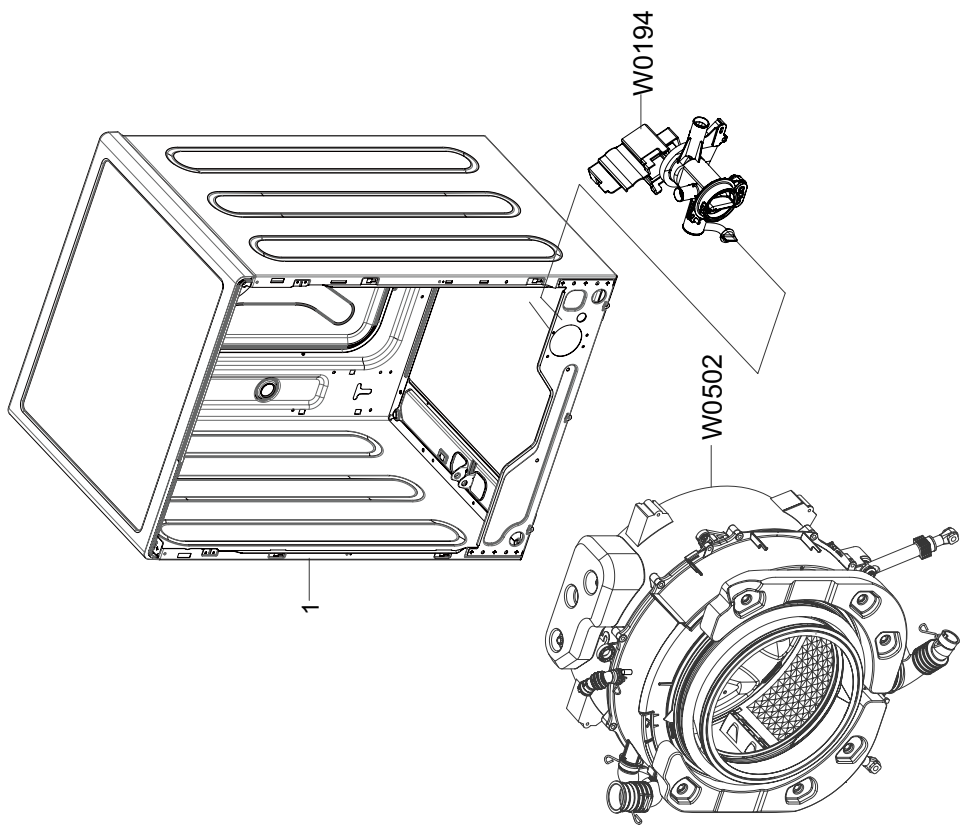

|               |                                                                                                                   |                                                                                                                                                               |
|---------------|-------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Type 1</b> | <br>ex) 0204-000418 FREON        | <b>Enterprise-wide parts</b><br>Type 1 materials can be used for all Samsung Electronics products.<br>(Most electrical parts belong to this type.)            |
| <b>Type 2</b> | <br>ex) DC96-01390A ASSY-CONTROL | <b>Division-wide parts (DC**-Washing machine)</b><br>Type 2 materials can be used for specific products.<br>(Most instruments and tools belong to this type.) |

### 2. Ass'y Materials

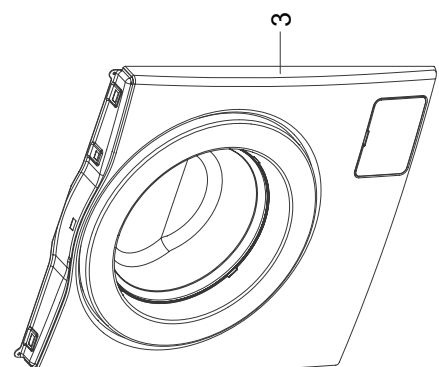

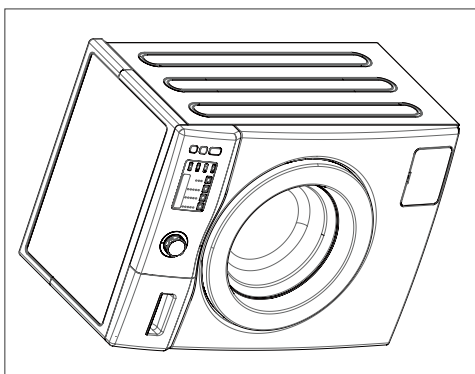

All ass'y material codes start with DC9\*.

An ass'y material is created by combining more than two materials. If a requested material cannot be provided, you can request an ass'y material that contains that material.

## 1. MAIN

|                                                                                       |   |                                                                                       |                                                                                     |                                                                                     |

This diagram illustrates the exploded view of a washing machine drum assembly. The central component is the drum (W0740), which is surrounded by various parts including the front panel (W0610), the rear panel (W0610), the door (W0610), and the drum support structure (W0610). The diagram shows the assembly sequence for the drum, including the drum support structure (W0610), the drum (W0740), the front panel (W0610), the rear panel (W0610), the door (W0610), and the drum support structure (W0610). The diagram also shows the assembly sequence for the drum, including the drum support structure (W0610), the drum (W0740), the front panel (W0610), the rear panel (W0610), the door (W0610), and the drum support structure (W0610).
